Timber Harvest Plan
No: 1-23-00099-SON
Steam Donkey

Letter of Conformance

The Director of the Department of Forestry and Fire Protection (CAL FIRE) finds that the above referenced Timber Harvesting Plan (THP) conforms with the Rules and Regulations of the Board of Forestry and Fire Protection pursuant to the provisions of the Z'Berg-Nejedly Forest Practice Act of 1973. Conformance is indicated by the signature of the CAL FIRE authorized representative on the attached copy of the THP.

Timber operations proposed in the THP may begin according to the conditions specified therein, and subject to the Forest Practice Act, and Forest Practice Rules of the Forest District in which the operations will take place. Amendments to the THP shall be submitted to the Director by the Plan Submitter, or the successor in interest (ref. 14 CCR §§ 1039, & 1040).

The Licensed Timber Operator (LTO) responsible for the implementation of the Plan is not responsible for the construction and maintenance of roads and landings unless the LTO is employed for that purpose per 14 CCR § 923.9.1 [943.9.1, 963.9.1]. A detailed description of timber operation responsibilities is needed to identify the LTO responsible for specific operations. It is the responsibility of the Plan Submitter to provide this information in accordance with 14 CCR §§ 1035, & 1040.

The Forest Practice Act requires the submittal of a Work Completion Report and a Report of Stocking, whether operations took place or not:

1. Work Completion Report (ref. PRC §4585): Within one month after completion of work described in the THP, a Work Completion Report shall be submitted by the Timber Owner or the owner's agent with the Department that all work, except stocking, has been completed.
2. Report of Stocking (ref. PRC §4587): This report shall be submitted by the Timber Owner or the owner's agent with the Department within six months or five years after completion of Timber Operations, depending on silvicultural method.

The effective period of this Timber Harvesting Plan is up to five years from the conformance date unless extended pursuant to PRC §4590. This THP will expire on April 09, 2029.

Sincerely,

Eric Hedge, RPF 3010
Forester III
